

This half term's home learning project will be celebrating Milton Keynes' 50th Birthday.

For those who are new to home learning challenges, it is a opportunity for children to explore their creative side. There are no right and wrong answers. It really is the taking part that counts.

The Challenge

Create a piece of art to celebrate Milton Keynes' 50th birthday. You might want to compare Milton Keynes of the past with Milton Keynes now or create a representation of what you think MK will look like in another 50 years. Think about the iconic buildings and places of MK and use them as your inspiration. Below are a few ideas:

Ideas

Create a photo collage of MK

Make a display of MK history

Bake MK a birthday cake

Create a video tour of MK

Build The Point out of straws

Draw a picture of what MK means to you

Design a new logo for Milton Keynes

Draw a map of MK past and present.
