How can my parents help at home?

When learning key recall facts it is important to do so little but often. Your child should already be confident in solving their x2, x3, x4, x5 and x10 tables. This term they will be focusing on their x8 tables and division facts. Try to make links between the 4 and 8 times tables.

There will be activities related to this key fact uploaded onto your year group's Google classroom page. These will include worksheets and websites.
