

KIRF Target 23 - I know decimal equivalents of tenths and hundredths.

$$0.2$$
$$\frac{2}{10}$$

$$0.4$$
$$\frac{4}{10}$$

$$0.26$$
$$\frac{26}{100}$$

$$0.72$$
$$\frac{72}{100}$$

$$\frac{6}{10}$$

What fractions are these?

How can my parents help at home?

When learning key recall facts it is important to do so little but often. Your child will be starting to understand simple decimals as tenths and hundredths and should be able to relate their understanding of this to fractions.

There will be activities related to this key fact uploaded onto your year group's Google classroom page. These will include worksheets and websites.

Vocabulary

What is 1/10 as a decimal?

Can you record 0.2 as a fraction?

How many tenths in 0.4?
