Top Tips!

- Practise them in and out of order - don't just count in multiples of a number.
- Practise the division facts too.
- If you know your 3 x tables, practise the next step: your 30 x tables!
- Ask someone to test you.
- Try filling in a blank multiplication table - how quickly can you do it?
- Make your own counting stick to help you to practise at home!

Practise your times table skills regularly on TTRockstars to keep them sharp!

How can my parents help at home?

When learning key recall facts it is important to do so little but often. In order for your child to progress in Maths in Years 5/6, it is essential that they are able to quickly recall their times tables up to 12x12, along with their corresponding division facts.

There will be activities related to this key fact uploaded onto the Maths page on the school website. These will include worksheets and websites. Try doing some of these at home.

Vocabulary

What is the **product** of 6 and 4?

What is 8 **times** 12?

What is 88 **divided** by 8?

What numbers are **multiples** of 7?

What are the **factors** of 36?
