Home Learning – Year 1

Autumn 1 – The Adventures of Bear and the Queen

Choose one or many of the suggestions below. In class, we will share all our entries. All winning entries will be shared in our Home Learning Celebration.

Due: Monday 11th October 2021

Arts

- Can you create a collage showing events that have happened in the Royal Family since you have been born? Have there been any children born or weddings to celebrate?
- The Queen is known for wearing lots of bright outfits. Can you design your own outfit for the Queen?
- On our stamps is the outline of the Queen's head. Could you carve a stamp in a sponge or a potato and stamp your own letters?

Music

- There are special Guards who play music as events for the Queen. They march and play at the same time. Can you learn your own march to the music?
- There is a nursery rhyme called the Queen of Hearts. Are you able to learn it and recite it?
- Royal Albert Hall is an iconic music venue in London. Can you research it? Could you also find out what performances happen there. You can present this in any way you choose.

STEM

(Science Technology Engineering Mathematics)

- Can you create your crown and decorate it to make you look like royalty?
- Can you record yourself giving a tour of London? Just like Katie and the Lion.
- Can you look at the Royal Family tree? Are you able to re-create it? Looking at the Queen as the head of the family.
- The Queen appears on our coins and notes. Can you identify the different types of coins? Can you add them together and challenge your maths skills?
