Home Learning

Our Planet In Space

This half term, choose one or many of the suggestions below. In class, we will share all entries. Winning entries will be shared in a Home Learning Gallery open to view for all parents at the end of the half term. Home learning due Monday 9th October.

Writing

Can you create a description of a planet of your choice? See if you can use similes, alliteration, metaphors, personification, expanded noun phrases or fronted adverbials to help describe it.

Computing

Fancy a real coding challenge? See if you can use Scratch on the computer to create a game with the theme of space. Watch this video for some guidance:
<https://www.youtube.com/watch?v=Mcc+LpbfOVM>

Music

Listen to Gustav Holts' - The Planets Suite.
Write about each one and how it represents that planet.
Can you identify which instruments were used and the effect they create? Which is your favourite?

STEM

Can you create a model of the solar system? It is nearly impossible to create a scale model, but try to consider which of the planets are the largest or smallest and which order they appear in our solar system.

ROOTS

Take a photo or draw a picture of yourself following out ROOTS. This could be a photo of you helping someone around the house, taking care of a sibling or being respectful.

Art

Space is represented by many artists in lots of different art forms. Can you create your own piece of art to represent space? What art medium will you choose? Paints, collage, pencils, pens, pastels...

Cooking

Can you create a space inspired snack?

PE

Can you create a space themed game or dance to share with your peers?

Poetry

Can you write a poem to help remember the order of the planets?
