

Home Learning – Year 2

Summer 1 – Explorers

Choose one or many of the suggestions below. In class, we will share all our entries. All winning entries will be shared in our Home Learning Celebration. Home learning is due in Monday 16th May 2022.

Arts

- Create a collage comparing Great Linford and Kenya. You could use photographs, tissue paper or other art materials.
- Have a go at making your own animal pattern inspired art. Can we guess who your animal is?
- Write a letter to the Maasai tribe. What would you ask them?
- Create your own savannah silhouette. Using paints, oil pastels or colouring pencils, can you create a sunset? Cut out silhouettes of animals you may find there.

STEM

(Science Technology Engineering Mathematics)

- Design and build a mode of transport fit for an explorer. Think about where you would like them to explore and what features might be useful for the trip.
- Create a map around your local area for an explorer to use!
- Explore foods from around the world. Try making recipes from different counties. You could create your own around the world cookbook. Check out these categories for inspiration.

Music

- Can you learn this drumming pattern? Why not have a go at recreating the traditional African dance alongside the music?
<https://www.bbc.co.uk/bitesize/clips/zn6d7ty>
- Can you build your own drum? What sequences can you make? Remember you can record your music and send it in to share.
- Research musical instruments around the world. Which musical instrument was your favourite?
