

Remote Learning - Key Information EYFS - Year 6

If your child or family has to self-isolate due to Covid related symptoms, or exposure to someone with Covid related symptoms, the school will provide your child with remote learning starting on the first day of their absence from school.

It is expected that your child completes this daily learning at home, unless they are themselves unwell, and returns it to their teacher via the Google Classroom. The code to access the Google Classroom will be sent to you via School gateway. Learning will be acknowledged by the class teacher via this platform.

If you require support with the home learning, or require additional resources such as a device, internet access or stationery, please contact the school office.

Creating a Calm and Positive Learning Environment for your child at home

- Set an alarm, have breakfast and get ready for the home school day.
- Try to create an area in your home where your child can complete their learning.
- Establish a routine by creating a timetable for your child to follow, clearly defining times for learning, rest, physical activity and play (see the school website for tips from parents at Great Linford School)
- Maintain a balance between time on and off-screen for learning.
- Take some time to share the learning with your child and set clear expectations
- If you can, take some time outdoors to get some fresh air.
- Check in with your child every now and again, to look over what they have done, and give lots of positive praise for what they have achieved!
- Take some time to be creative, have fun and play with your child.
- Use and follow the weekly mindfulness activities

Remember, you can contact the school office at any time for additional support.
