

Golden Leaves

Each term we will be focusing on one of our ROOTS. If a child demonstrates this they will be given a golden leaf. They can take this home to share their amazing contribution to the values of our school with their families and friends. Their name will also be printed in the weekly news letter and a gold leaf with their name on will be displayed in the reception area.

This will be happening by the end of the Spring Term.

Primary School

Guide to Our School ROOTS

At Great Linford Primary School we believe that part of our role is to ensure that your children grow and become well rounded people who value and respect each other, our school community and the wider community around them.

To support this, all stakeholders in our school family are expected to follow our school values.

Our school values are linked with our school tree which is our school's emblem.

Below is a description of what our values (ROOTS) mean.

Respect

In our school we respect all people, celebrating their differences and their cultures . Everyone who is part of our school community is expected to respect each other. We also respect all animals, the school environment, the wider and global communities in which we live .

Overcome Challenges

Everyone in our school family perseveres and tackles challenges head on. Challenges can be wide and varied from academic challenges to making new friends or simply having a go at anything life throws at us! We are resilient at Great Linford Primary School.

Open Our Minds

We open our minds to creativity and always look curiously at the world around us. Although we may encounter things that are unfamiliar and sometimes a little daunting, we always approach our learning and our everyday encounters with an open mind set.

Take Care

It is our responsibility to take care of both our bodies and our minds to ensure we are ready to meet all challenges. We do our best to maintain our well being and ask for help if this is low. We do our best to eat the right kind of food and to exercise our bodies.

Speak Kindly

It is important in our school to always speak kindly to every one we encounter and to always listen carefully to other people's view points even if we don't agree with them. By speaking kindly to each other and listening carefully we can resolve any problem by finding the right solution!

Our Reward system linked to our ROOTS

To celebrate modelling our Roots we are rewarded in different ways;

We have our name on a golden bird and are given

A medal to wear– achieve

A special stone– enjoy

A heart– thrive

The Aspire Trophy

To show that we are keeping our special values, we strive to achieve the Aspire trophy

Daily we do our best to follow our roots in order to achieve, thrive and enjoy our learning.

Each week we can be awarded the aspire trophy which is given out in assembly. To be awarded this we demonstrate consistently during the week that we follow the ROOTS.
