Accommodation

All of our cottages offer the perfect balance of peace and tranquillity whilst still being equipped with everything that you'll need to have the best break ever. When you walk into one of the cottages, you will see light, roomy and airy spaces to eat and socialise. But, the latest gadgets and mod-cons will also be there too! (I mean, who can live without wi-fi, right)?

We do not scrimp on style! These may be cottages but they are cottages fit for the 21st century! Colourful, modern artwork decorates the walls and tasteful colours are scattered throughout the cottage meaning that the biggest worry you have is what to have for dinner.

Yet, everything for your meals are provided in the well-stocked kitchen and our plush, memory foam mattresses mean that you will sleep soundly and deeply in comfort.
