

Dear Year 2

Monday 13th June 2024

Have you ever dreamed of exploring a magical place full of tall trees, colourful birds, and amazing animals? Well, I have some exciting news for you! I want you to come with me on a fantastic adventure to the rainforest!

First, imagine walking through the rainforest, surrounded by towering trees that touch the sky. I bet you'll never have seen such magnificent, breath taking trees before! Use your binoculars to spot all kinds of fascinating creatures hiding amongst the branches, like cheeky monkeys swinging from tree to tree and vibrant parrots flying above your head.

Secondly, I also want to talk about the incredible animals that you'll be able to see. You could spot playful sloths lazily hanging in the trees and colourful butterflies fluttering around like sparkling rainbows. How wonderful it is! Did you know you might even catch a glimpse of a majestic jaguar prowling through the dense foliage or a sleepy panda munching on bamboo shoots?

Think about all the exciting things you can learn in the rainforest! Come and discover how plants and animals depend on each other to survive and thrive in this lush environment. Listen to the soothing sounds of the rainforest and learn about the importance of protecting this precious ecosystem for future generations to enjoy.

Finally, just imagine the memories we'll make together on this unforgettable journey. We'll hike through winding trails, splash in sparkling rivers and maybe even camp under the twinkling stars! So, my friends, are you ready to embark on this incredible adventure with me? The rainforest is waiting and I promise you won't regret it! Pack your bags, put on your explorer hats and set off on the journey of a lifetime! How exciting it is!
