

Home Learning – Year 1

Spring 1 – Under the Sea

Choose one or many of the suggestions below. In class, we will share all our entries. All winning entries will be shared in our Home Learning Celebration.

Due: Monday 7th February 2021

Arts

- Art on a plate- Can you use a paper plate and create an under the sea collage.
- Can you use recycled products to create an under the sea picture?
- Can you use a box of your choice to create a beach in a box?
- Can you create your own sea creature? This could be a fish, an octopus or an animal of your choice!

STEM

(Science Technology Engineering Mathematics)

- Can you make a model of the world and it's different oceans?
- Our beaches need to be preserved and cleaned. Can you design a machine that could do this?
- Can you create a beach in a bottle? There are lots of things you could put inside these to make yours unique!

Music

- There's a famous Disney movie with a song about the sea in it. Can you find the song and learn the lyrics?
- Some under water creatures make noises to communicate. Can you research these animals? Maybe you can practise making these noises?
- People can find the seaside a calming place to be. Could you create your own piece of calming music?
