

Mr Bruce Boggington,
The Chief Director of Onions R Us,
25 Vinegar Lane,
Onion Keynes
ONI4 ION

Dear Children,

I am writing to inform you of my new and exciting plans. I intend to buy your school field in order to build a brand new pickled onion factory! However, to do this, I will need permission from pupils at the school. The following letter will outline my plans and hopefully persuade you to agree with the onion factory being built on your school premises.

The factory will produce bespoke, delicious pickled onions which will tempt visitors from across the nation and will take up most of the grassy area around your school. My factory will provide lots of new jobs for the local people, and best of all, they will receive free complimentary jars of pickled onions at Christmas!

Did you know eating onions has great health benefits? Onions contain antioxidants and anti-inflammatories. As a result, eating onions may help lower heart rate risk. Consequently, 80% of our current customers have said they 'feel' healthier by regularly eating our pickled onions.

Even though some people may describe onion scent as strong, I believe that the wonderful aromas coming from my factories chimneys will float around the playground of your school, making it a very pleasant place to play (I'm sure you will agree).

Finally, all children will be given free samples of pickled onions every break time! I hope that you have found this letter both informative and persuasive. The benefits of an onion factory on the school field will both help the school and the community.

I look forward to seeing you soon to show you our amazing plans.

Yours sincerely,

Bruce Boggington

Mr Bruce Boggington, Chief Director of Onions R Us.
